Programming with JavaScript coursera

SKILLS

HTML   CSS   JavaScript   React

SUMMARY

I specialize in creating user-friendly, responsive, and visually appealing web interfaces. I have a strong command of HTML, CSS, JavaScript, and modern frameworks like React, My focus is on delivering seamless user experiences through efficient, optimized code and collaboration with designers and backend teams. I'm skilled in implementing responsive design principles, ensuring cross-browser compatibility, and enhancing site performance.
Key Skills:

- •HTML5, CSS3, JavaScript (ES6+)
- •React.js
- •Responsive & Mobile-Compatibility
- •Frontend Testing (Jest, Cypress)

KEY ACHIEVEMENTS

💎 **Certificate in Frontend development on coursera**
Learned about front-end, the role and purpose of a front-end developer

PASSIONS

🖥️ my passion lies in bringing ideas to life through clean, efficient code and intuitive design. I thrive on the challenge of transforming complex concepts into simple, engaging user experiences. Crafting pixel-perfect layouts, optimizing performance, and ensuring accessibility for all users excite me, as does staying up-to-date with the latest web technologies and trends.For me, frontend development is more than just code—it's about creating meaningful interactions that connect users to products and information effortlessly.
